

Once again the general public has been kept in the dark about a major change in the way we are allowed to think and speak! i just heard abput this dockett thanks to a friend. I am a small business owner in this country, (we are a majority), that is struggling like so many due to our slow economy. I can hardly afford to advertise on local media as it is right now. Which of course helps keep my business name and business itself going. I can't imagine what advertising costs will do if there is no competition from another media company because one entity owns the whole ball of wax. I could've sworn that MONOPOLIES are not allowed!!??? Please do not allow this rule/law or any thing to so with it to be "re-evaluated". LET IT STAND! Tell the media moguls to go make their millions the same way I try to, EARN IT!!! Not minipulate the law!
